# P ROGRAMA

 **BIOCORALIA**

A watercolor illustration of a landscape. In the foreground, a stone bridge with three arches spans across a stream. The water is depicted with light, flowing brushstrokes. On the left bank, there are several tall, thin trees with sparse leaves. In the background, a few small figures of people are visible on the bridge and on the banks. The upper portion of the image is dominated by large, translucent, yellowish-green shapes that resemble hanging leaves or petals, creating a soft, ethereal atmosphere. The overall color palette is muted and naturalistic, with a focus on greens, yellows, and earthy tones.
